# City guide

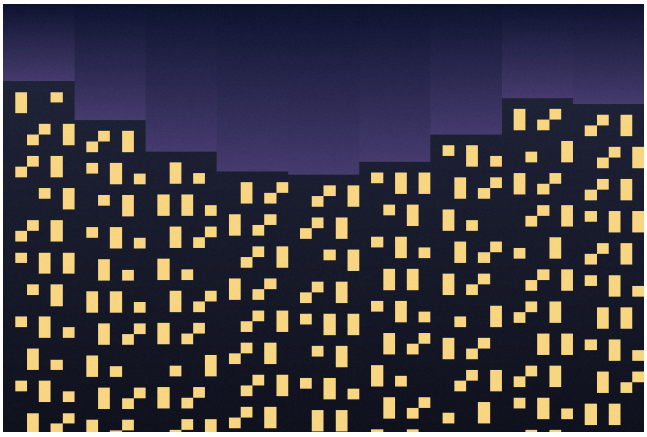

A sample document for the KeepSimp PDF compressor.
Its photographs hold far more pixels than the pages show,
as pictures from a camera or a design app usually do.

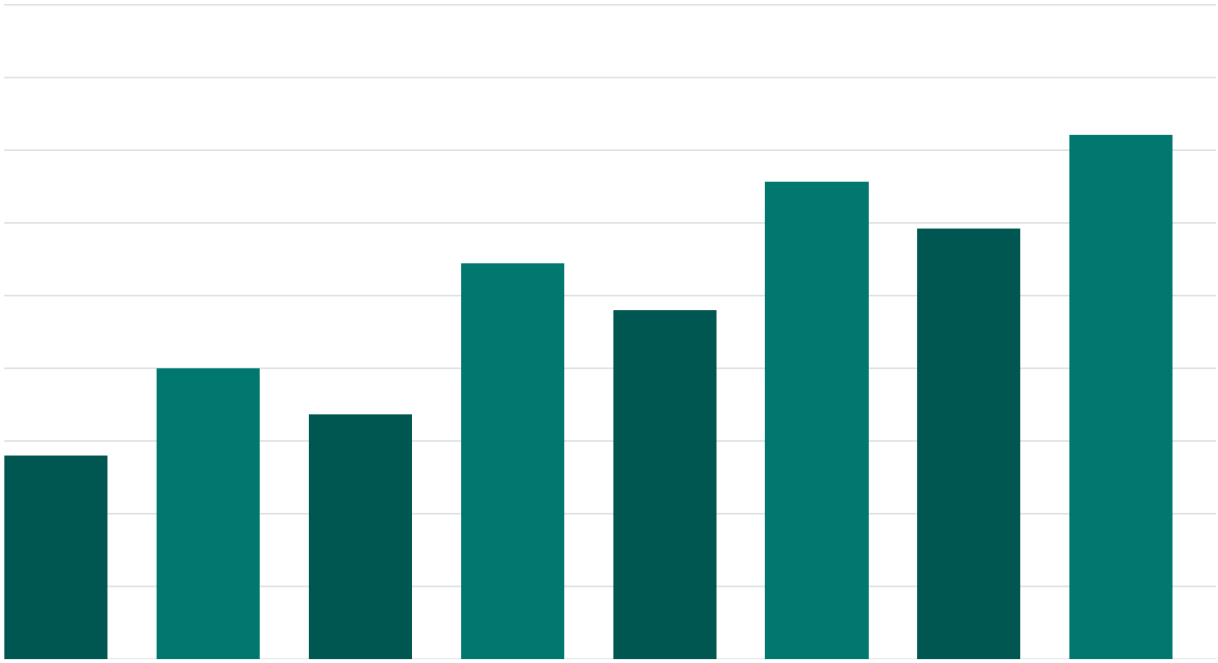

# Getting around

Trams run every six minutes until midnight.

A day ticket covers trams, buses and the river ferry.

**Visitors by month, in thousands**

# Where to stay

The old town is quiet at night and close to the river.

Rooms near the station cost less and suit an early train.

Book ahead in June and September, when the fairs are on.
